## AMUSEMENTS.

GOOD PROGRAM AT GRECIAN.  
"The Soul of a Thief," a two reel offering of unusual interest, will be shown at the Grecian today. It is a delightful story of a thief's reformation—a pretty love affair and strange adventures. It contains some very odd plot situations and it is somewhat different from the usual run of pictures of its kind. You'll enjoy every bit of it. This picture is produced by the first American Stock company. On the same bill will be shown the mutual weekly, the latest events and the new fashions from New York and Paris. Altogether it is a most enjoyable program—be sure and see it.—Advertisement.

BOER BATTLE PICTURE TODAY.  
"The Battle for Freedom," Kalem's great war picture, will be seen at the Wigwag today and tomorrow. It was produced by former officers of the Boer war at localities which resemble the actual battle grounds in South Africa. According to the critics, the picture is interesting as a spectacle and doubly so in its illustration of the military tactics of both the Boers and the British. One particular point that is emphasized in the standing erect of the British officers in the thick of a fight, while their men lay concealed behind various obstacles. There is a bit of realism in the picture which was not planned by the Kalem company and that is the explosion of a machine gun. Three men were seriously hurt. It is stated by the Morning Picture World that 7000 rounds of ammunition were used. An Assanay comedy will complete the program. The peerless Arthur Johnson will be seen Friday (only) in a strong drama called "The District Attorney's Conscience."—Advertisement.

AIRBORNE—JACK HOUSE CO.  
At the Airborne theater, next Wednesday night, The Jack House Stock company will open a four weeks' run at the Airborne. The opening play will be "Six vs. Six," with high class specialties between acts. Admission will be 10, 20 and 30 cents only.—Advertisement.

INSANITY IS NOT PREVALENT AMONG TROOPS ON ISLANDS  
Washington, D. C., July 28.—Insanity among the American troops serving in the Philippines is not prevalent and a common belief to that effect has been proved by figures collected by the surgeon general of the army. These show that there are more discharges from the States than in the islands, the figures being 2.87 per 1000 for the former and 2.13 for the latter.

OROZCO COMING NORTH.
